## MOTIVATION

I am a highly motivated individual with a passion for software development and a desire to continually learn and grow in my field. I have experience working on various software development projects and am confident in my ability to deliver high-quality solutions. I have strong analytical skills and am able to effectively translate user requirements into technical solutions. I am also able to effectively communicate with both technical and non-technical stakeholders to ensure a successful outcome. I am eager to join a dynamic and innovative organization where I can utilize my skills and knowledge to make a positive impact.

## WORK EXPERIENCE

June 1<sup>st</sup> 2019–October 1<sup>st</sup> 2020

**Student software developer**

**Multicom d.o.o., Zagreb (Croatia)**

- Analyzed user requirements and participated in the development of technical solutions for new system functionalities.
- Provided advisory services to end users in the development of business processes and integration of IT solutions.
- Developed technical and user documentation of the system, and supported integration testing.
- Provided operational support to end users, including analyzing error reports, researching causes, detecting bugs, and elaborating solutions.
- Developed PL/SQL objects (procedures, functions, packages, etc.) and tested developed functionalities.
- Delivered functionality to the production environment and worked with databases.
- Performed large manual actions on data in the database, such as migrations, updates, and corrections.

October 1<sup>st</sup> 2020–June 17<sup>th</sup> 2022
